

## Home Learning in the Nursery

As part of your child's learning, there are things you can do to help at home.

Each week your child will bring home a new letter to practise. In their "Sound Book" they will have the letter and action picture. In addition they will have a key ring with the letter of the week added, building up a letter fan. There will also be some dotted letters to enable your child to practise writing the letter of the week.

Last year, we successfully trialled a "Home Learning Task" each month and will continue with the scheme this year. The tasks are designed to be a fun way for you to engage with your child to complete an activity at home together. These tasks will be linked either to our main theme or to the relevant season or event.
