

PARENTS' AND CARERS'  
GUIDE TO CARLTON  
COLVILLE.

How we learn at Carlton  
Colville Primary School!

The way your child learns  
may be different from how you  
learnt. At Carlton Colville  
Primary School we make sure  
our teachers and staff are up  
to date with the latest learning  
developments in teaching and  
learning. This is what your  
child may tell you about their  
learning...

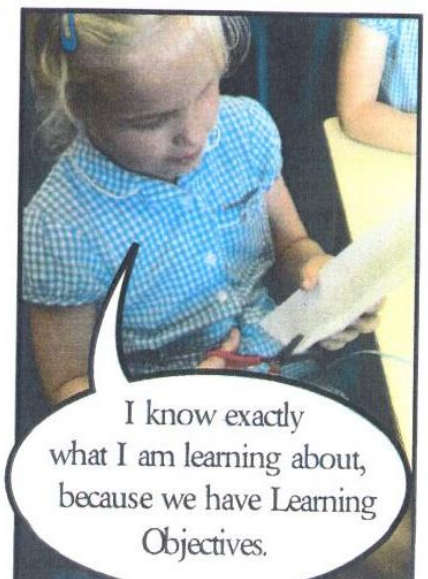

I often work with my learning  
partner. We share our ideas; plan our work; and  
reflect on our learning. This helps us both! My  
learning partner can be different in Maths,  
Literacy, Science or Topic Work.

In Early Years  
we learn through play in  
a free environment.

The way we learn develops our communication and  
language skills, physical development and finally our social and  
emotional skills.

I know exactly  
what I am learning about,  
because we have Learning  
Objectives.

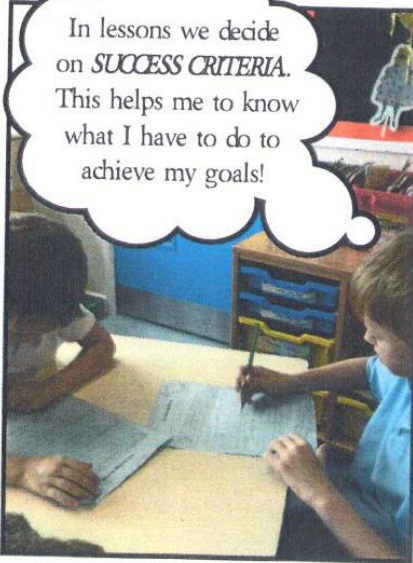

We get rewarded for each week by being chosen as a superstar for outstanding work, when we put lots of effort in. The year 6 pupils get special rewards called Learning Diamonds. These are end of term rewards for children who have great learning habits, progress and homelearning in term time. They are rewarded with special events.

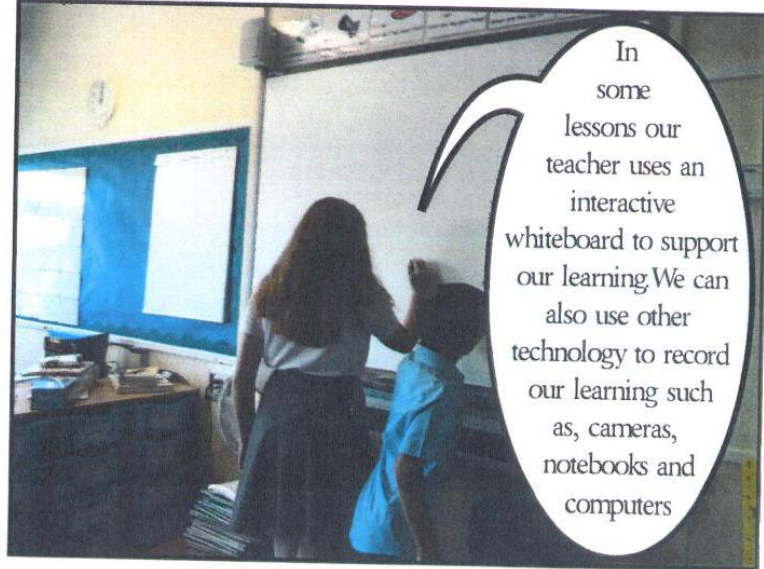

Learning can be outside the classroom as well. Sometimes we go to the local area to find out more about our topic that we are learning about. We also go on educational visits.

My teacher will sometimes use lolly sticks to randomly choose someone's ideas.

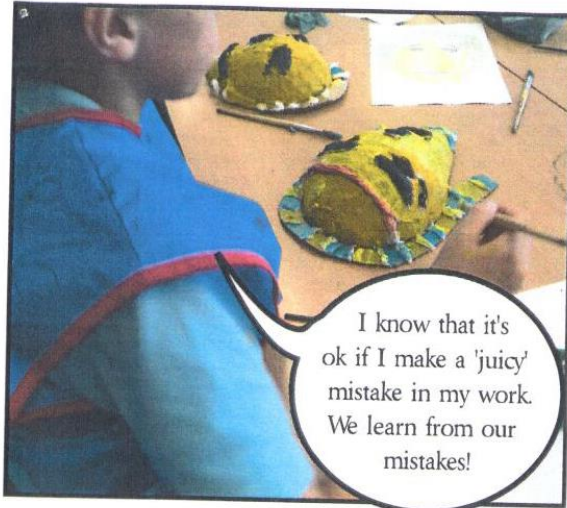

In lessons we decide on **SUCCESS CRITERIA**. This helps me to know what I have to do to achieve my goals!

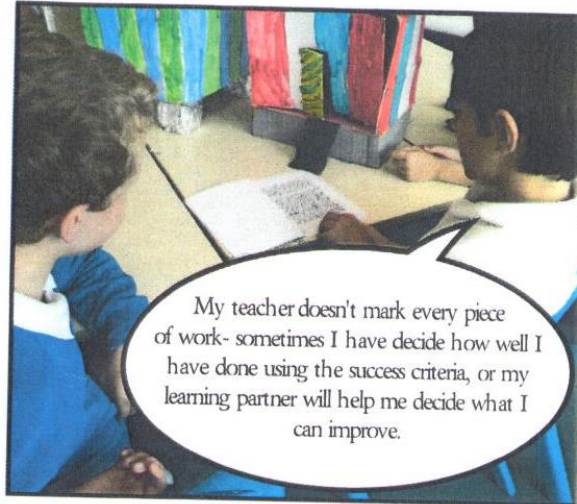

In some lessons our teacher uses an interactive whiteboard to support our learning. We can also use other technology to record our learning such as, cameras, notebooks and computers.

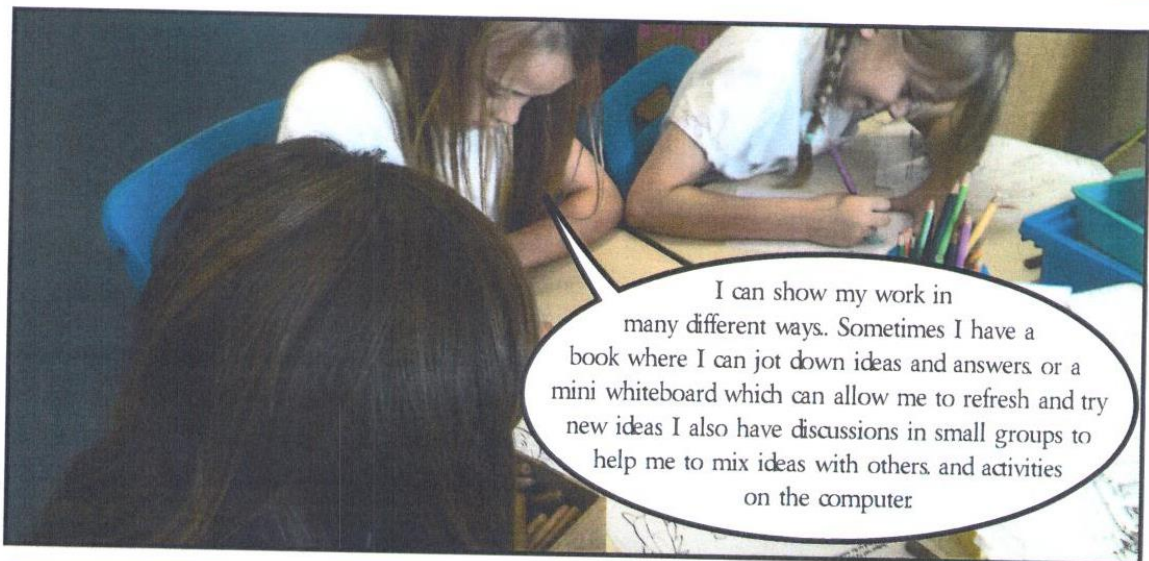

I know that it's ok if I make a 'juicy' mistake in my work. We learn from our mistakes!

My teacher doesn't mark every piece of work - sometimes I have to decide how well I have done using the success criteria, or my learning partner will help me decide what I can improve.

I can show my work in many different ways. Sometimes I have a book where I can jot down ideas and answers or a mini whiteboard which can allow me to refresh and try new ideas. I also have discussions in small groups to help me to mix ideas with others and activities on the computer.

We are also encouraged to use our Learning Skills to aim high! Like using Captain Confidence, Determination Dude, Fantastic Focus Girl and Teamwork Champ. Using these will help us to be lifelong learners! I am using Captain Confidence to read to my class!
