

## Impact of the PE and Sport Premium 2016 -17

The PE Premium is additional funding given to schools.

Our school received **£9,750 + £1657 (carried over)** during the academic year 2016-17 (**£11,407**) and used this in a number of ways to improve the quality and breadth of PE and sport provision (see PE and Sport Premium document for more details).

Outlined below are details of the impact this funding has had in our school across the year:

### Staff Training and Teaching Resources:

- Newer members of staff across Key Stage 1 and Key Stage 2 have accessed Val Sabin training in Gymnastics, Games, Athletics and Dance. Course information was then cascaded to the rest of the school staff via internal staff training. This has resulted in improved staff knowledge, consistency and subsequent quality of Gymnastics and Games teaching throughout KS1 and KS2. As a result of attending a 'Steps to Outstanding P.E' training session, the school's P.E leader also gained a wider understanding on how to promote a larger percentage of activity in clubs in extra-curricular sessions, effective assessment to use in lessons and a few additional health and safety points to consider based on recent case studies.
- A member of staff in the Early Years also attended 'Early Years Action Kids', which taught her how to implement the Val Sabin schemes of work into Early Years more effectively. This was then cascaded to the rest of Early Years within a team meeting. The P.E leader carried out a learning walk in the Summer term where it was clear that the Val Sabin schemes were being implemented more confidently in school.
- The PE coordinators also attended conferences run by Lowestoft and Beccles' Primary Schools' Sport Association across the year, to ensure they stay up to date with current initiatives in PE, the PE Premium and the development of the national curriculum in respect to assessing depth. This wider understanding of assessment helped the P.E leader when carrying out monitoring of the subject during the Summer Term, including lesson observations in Key Stage 1 and 2 as well as a learning discussion with the children who participated in the lessons.

### Opportunities for competition and out of hours sporting activities:

- We have entered a wide range of Level 2 (locally held) tournaments and competitions this year (12). As a direct result of this, more children across the school have had the opportunity to participate, compete and achieve success in these tournaments and competitions and also recognise the importance of an active, healthy lifestyle. It has also helped us develop partnership links with other local primary schools and the high school within our pyramid. Our school entered 'B' Teams into the Athletics and Cross

Country tournaments, which broadened participation. We also saw an increase in performance and results in the subsequent tournaments.

\*Year 3 entered a team into the locally held Matball tournament (where we came first place) and Skittleball tournament, as well two of the Cross Country competitions.

\*Year 4 entered teams into locally held Cross-Country, Short Tennis and Athletics tournaments (in which some children medalled).

\*Year 5 entered teams into locally held Football (where we came first place), Cross Country and Badminton tournaments. We also entered some Year 5 children in the local Swimming Gala for the first time.

\*Year 6 entered teams into locally held Kwik Cricket, Rounders, Basketball and Swimming tournaments.

- We have also been able to run a significant amount of out of hours sporting activities and clubs this year. This has included employing coaches from local community sports clubs to run activities as well as members of staff to improve the range of activities we provide. As a direct result of this, around 5% more children across the school have had the opportunity to participate in a wider range of sporting activities and recognise the importance of an active, healthy lifestyle.

\*Year 1 children have had the opportunity to participate in Mixed Games clubs, as well as weekly fun competitions.

\*Year 2 children have had the opportunity to participate in Football and Mixed Games clubs, as well as weekly fun competitions.

\*Year 3 children have had the opportunity to participate in Matball, Short Tennis, Skittleball, Boxing, Cross Country, Kwik Cricket and Multi-Sports clubs.

\*Year 4 children have had the opportunity to participate in Boxing, Cross Country, Short Tennis, Mixed Games and Athletics clubs.

\*Year 5 children have had the opportunity to participate in Badminton, Football, Rounders and Cross Country clubs.

\*Year 6 children have had the opportunity to participate in Tag Rugby, Indoor Athletics, Basketball, Kwick Cricket, Rounders and Boxercise clubs.

- Over the year, we have run competitions within our school during lunchtimes to promote participation during school hours as well as outside-of-school hours. We used PE Premium funding to employ a local coach to run a weekly competition (with the help of Year 5 competition managers). Over 70% of children in the school participated in either a Rebound, Speed-Stack or Basketball Hoops competition across the year.
- We have also taken great pride in learning that 90% of our children leaving Year 6 in 2017 were able to swim 25 metres unaided, which is around 10% above the national average.

### **Developing opportunities to support high and low achievers in PE:**

- Every class from Reception, Year 1 and Year 2 has been taught by a sports coach for one lesson a week each half term. This has supplemented the PE taught by their class teacher and also allowed them to access high quality PE and specialised tuition in a greater range of sports. It has also resulted in the high achievers in PE receiving extra challenge and extension during these sessions.
- We also paid for children in Year 5 and Year 6 to participate in the Bikeability scheme, helping them to learn both the fundamentals of riding a bike as well as road safety awareness.

### **Facility Development:**

- We have continued to develop and resource our active playground system by enhancing some of the lunchtime equipment in line with last year's new zoning and the continued deployment of a dedicated adult playground leader to promote active play at lunchtime and support the Year 4 Play leaders. Our zoning works well with the space available on our site, providing a wide range of activities to engage children from Year 1 to Year 6. This has resulted in around 10% more children being involved in positive and active play and sporting activities at lunchtime. Due to the popularity of the outdoor table tennis table purchased last year, we have had to purchase more table tennis balls and bats.
- A certain amount of money has been set aside for the next academic year to purchase outdoor sport and fitness equipment, which would make use of our large space available on the field and promote further active play during school hours.

### **Links to Local Clubs:**

- We accessed the local 'Ultimate Boxing' club, which the children loved doing. It also led to some children attending the 'Ultimate Boxing' club's training club on a Saturday morning.
- In an effort to promote swimming in school outside of the curriculum, we have also made links with 'Mrs Parr's Swim School' who has provided two lunchtime swimming clubs per week, focussing on both swimming fundamentals and a water polo club.
