

Year 1 Home Learning

We have some lovely Home Learning Books which we will send home with the children each Friday. The tasks in these books are intended to encourage the children to learn at home and to reinforce the learning that we are doing in school. As the children are still new to Year 1, we would encourage parents to judge the level of support their children will need to complete the task set. It should get everyone talking about the great learning going on in school and will help to develop Literacy and Numeracy skills further.

We would like to ask that Home Learning books be returned to school on a Monday. We recognise that weekends are very busy time, and only ask this so that we have enough time to mark your children's super work!

As a rough guide tasks may include writing, reading, spellings drawing, and many other fun activities! Anything else you feel you would like to add to your child's home learning book related to our topic would also be very welcome!
